Personal Review: Mindfreak: Secret Revelations by Criss Angel
I haven't the faintest idea of why my 12 year old granddaughter likes this guy, and even less of an idea of whether this is good or bad, but Amazon keeps pestering for a review... All I know for sure is that she likes him, and that since he is on network TV he can't be all that objectionable (although to tell you the truth, what is acceptable today for prime-time audiences would have been banned by the Hays Office, and you can Google it if you are a lot younger than I am).
